## Some Facts About

## Oriental Rugs and Their Prices

Of all Art Creations the average person probably knows less about Oriental Rugs than any others. And one can pick up a newspaper almost any day and see advertisements of different concerns all claiming that their prices are the lowest. Hence it is only natural that there is considerable confusion regarding values.

For 41 years Pushman's Oriental Rugs have been the standard of quality in Chicago and the Middle West. It is a well known fact that rugs from Pushman's can be depended upon. Every man in this concern is a competent judge of Oriental Rugs and their values—some of us have woven them.

Hence we cannot fail to be somewhat amused when we see rugs advertised at "specially low prices" when we know that such prices are often above the regular prices in this store.

Pushman Bros. are one of the biggest Oriental Rug dealers in the country. Our combined wholesale and retail business is so large that we are able to import large quantities of rugs. Frequently we buy entire collections—collections which some dealer has been assembling for years. Consequently we enjoy a price advantage which we are able to pass on to you in the form of lower prices.

The result of all this is that anyone can drop into this store-any day in the year-and buy Oriental Rugs of good, dependable quality, at prices well below those usually prevailing elsewhere.

But there is only one way of finding out how true this is. Don't just take our word for it, but go into every worth-while store, study carefully the rugs you are shown, and make careful comparisons of qualities, sizes and prices. Then come here and you'll know.

A few of the many rugs now in our collection-

What'll I do, say? What would you?
If it's pulled, I buy me the cutest hat;
Pullin's cheap—an' the hat's marked down;
If it's crowned—I'm gonna be busted flat!
Shall I leave him pull it—or give it a crown? I've tossed all night, but I can't decide;

A LINE O' TYPE OR TWO

If it's pulled I certainly get the hat! But if the hole that's left is 10 feet wide It's the air from Gus-and that is that! If the feet are punished in boyhood, bunions and corns are certain to result in later life. If I get it crowned, it'll look just swell. But gosh! One hat the whole year 'round? Whattud you do? Say, Pearl-it's hell!

In later life.

But the most important rules of living to learn in boyhood are those which relate to habits of mind. They cover such subjects as playing the game, being fair, helping the other fellow, doing your harm them. -Leave him pull it or give it a crown? Wouldn't a daddy come in nice? Sugar poppa! ### CHRYSLER IMPERIAL AS FINE AS MONEY CAN BUILD

And Built for Those Who Want Supremacy

CHRYSLER has never built a car for any other purpose than to give the public a marked improvement and a greater value.

That is why Chrysler builds the Imperial "80".

You and Chrysler both know that mere years add nothing to the inherent value of an automobile name. True it's a fine thing to buy a grand old name at a high price and have your neighbors recognize that you've bought a fine car.

But it's a lot better thing to buy the finest per-forming, easiest riding, most luxurious car on the market—a car as fine as money can build—and have all you pass say you have the finest car and the soundest automobile investment in the world.

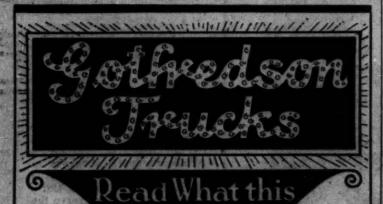

You know how the famous earlier Chrysler achievements advanced the whole art of building fine cars in the lower priced fields. And you know there has long been even greater opportunity for advancement in the high priced field.

The Imperial "80" brings you every advance-ment you have so long hoped to find. If you want real supremacy in your car, don't fail to drive the Imperial "80". Isn't that a fair way to present it to you?

# Byrd Reaches His Goal

Mobiloil Lubricated Fokker Plane Carries Him Safely to Top of the World

> From the frozen Arctic comes the radio message of Lieutenant Commander Byrd's successful flight to the region of the North Pole.

> This marks another great achievement for flying for a naval aviator and for a Mobiloil-lubricated airplane.

> Commander Byrd was expected to make a preliminary hop to Peary land, there to establish a base for his further flights into the Arctic, but he startled the world by flying straight from Spitzbergen for the North Pole.

> Commander Byrd chose Gargoyle Mobiloil as the one oil supremely qualified to meet the unusual demands made upon the Wright engines of his Fokker plane. He knew correct lubrication would be perhaps the most important single factor in the reliable operation of the airplane's motors.

Facing great hazards in the Arctic's ice, fog and winds, he could take no chances on faulty lubrication.

To the ordinary perils of flying over dangerous country was added the biting Arctic cold, which made engine operation and especially lubrication extremely difficult.

Once again Gargoyle Mobiloil has played a vital part in a history-making venture.

It was Gargoyle Mobiloil that lubricated the U.S. army around-the-world flight in 1924, perhaps the most famous of all adventures of the air. In many other famous flights Mobiloil has played its important part.

This is not a special oil prepared for this test. It is the same Gargoyle Mobiloil that is on sale by good dealers everywhere. Sixty years of specialization in lubrication have given Mobiloil the qualities that caused Commander Byrd to select it. These same high lubricating qualities recommend the use of Mobiloil in your automobile.

L. FRIEDMAN Fur Storage Vaults

### A Summer Home for Your Winter Furs

THESE modern vaults are now ready waiting in Artic cold to guard your furs. They are never so appy as when they spend the summer in the constantly changing air currents that keep them at temperatures below freezing. All furs left in storage with us are first thoroughly cleaned and glazed to remove imbedded dust and larvae.

Our storage rates are moderate and based upon customers'valuations. We quote special rates to those having their own insurance policies.

### Anyone here that doesn't want to make money?

There are a lot of ways to make money. Stocks, bonds, real estate—and sometimes you can hit it lucky in an oil well or a gold mine.

But why is real estate getting a bad eye?

It's too easy to buy a page in the Tribune or the News and sing a long song about wonderful valueseasy time payments-sidewalks and water pipe free.

But "sidewalks and water pipe free" won't make money-and anyone can say "WONDERFUL VALUE" in capital letters.

So, we'd like to have you look over our beautiful brochure on Flossmoor Highlands at your leisure. And, if you've time, we'd like to drive you down there some afternoon.

Flossmoor Highlands is Cook County's high spotit's directly in the path of South Side Development -and it's only 32 minutes from the loop on the electrified I. C. It's a good place to let your money grow with the district.

Know the Joy of a California Summer

-Average Mean Temperature, 69 Degrees!

SOUTHERN California grows tremendously in permanent population every year because of the year 'round advantages in climate, not because of any "season's" features.

And yet summer is most natives' favorite time of year, because this section of the country enhances summer's joys and sports as no other of the world's parts seems to do. Yes, contrary to the beliefs of some people who have never been here, summer is as popular with vacationists and tourists as winter ever has been in this unique state. Scores of thousands come here from the East to enjoy this charming difference, this enchanting

You, too, will return and tell your friends about it. And you'll come back many times again to take advantage of these unusual delights.

Light overcoats and wraps are needed in the evenings, yet the sun shines every day. And no rain comes to spoil your sports.

And there's usriety here to appeal to every member of the family.

For Southern California isn't "seashore only," not merely "a mountain resort," not simply "a golfer's paradise," or a "sightseeing ground."

Here are marvelous seashore

Here you may camp out in a wilderness and see no other human soul for weeks. Here you may walk or ride or motor, sail or swim or rest or dance dress in evening clothes, or "rough it," as you choose.

Five thousand miles of perfect motor roads marked by more than 200,000 guide signs are available to you. In three hours from Los Angeles you can see a desert like Sah groves of figs, dates, oranges and fields of cotton on the way, see a mountain with snow on it, visit an old Spanish mission built a hundred years ago. The U. S. Weather Bureau records

of the average mean temperatures in Los Angeles for the past fifty years result in the following amazing figures: fifty Junes, 66 degrees; fifty Julys, 70; fifty Augusts, 71; fifty Septembers, 69—a grand average, for fifty years of 69! ifty years, of 69!

No, there is no other summer playground in the world so complete, so
picturesque, so cool and delightful—
nothing else so different, yet as near.

All railroads will help you to make
the trip this year, for they have put
on very low round-trip rates from
May 15th until October 31st.

### THE POWER OF A HUNDRED INDUSTRIES

The power demands of industry are unceasing. Every second of every day power is needed in some line to carry on the world's work.

In hundreds of industries Continental motors are furnishing dependable power for a countless number of diversified uses. They are serving in an unusual way the power needs for industrial development. Among these Continental Motors are used for mining, lumbering, road and bridge building, steel mills, railroads, agriculture and marine.

Back of each industrial success are three outstanding factors—men, money and methods. The ability of the workmen must be fused with ample resources and proper meth-ods. Continental has coordinated these three essentials to an unusual degree and the result is reflected in its product.

A manufacturing record showing a factory output of more than 2,750, 000 motors for automotive and industrial power needs has placed Continental at the top as a manufacturer of motors. It has resulted in a position of supremacy, which 26 years of continued experience and an outstanding quality product have made possible.

Those resources which embody the highest skilled man power, ideal machinery equipment and high skill in precision processes give Continental advantages which have made it an outstanding success in the motor manufacturing field.

Today the proven performance of all Continental motors has resulted in a position where the Red Seal Mark is the synonym of experience and quality in motor manufacture and the user's guarantee of depend-able, economical service.

### WILSON LIMPS TO BAT, CLAMPS ON HERO'S HALO

Heathcote Clinches It as 36,000 Watch.

BY JAMES CRUSINBERRY Hack Wilson, hero of the north side bbled to the plate in the ninth inning

yesterday. The Cubs needed one run to tie the score or two to win from the New York Giants in the final game of the series. There were at least 36,-000 fans present and every one of them cheered. Their hero had been out of the game with a torn

crisis, with a run needed, he went to the front, de-

livered a two base blow into the crowd that started a rally and the Cubs won the combat, 8 to 7. No use talking, Hack is a wonder Some day he'll be sent up to the fat in a wheel chair and knock a home in a wheel chair and knock a home run. Yesterday Hack couldn't run But Hack on one leg can hit. Boss McCarthy must have known it and in
that ninth inning after Hartnett had

Spell Hack H-e-r-o. He knew he couldn't run, so there was only one thing left to do, hit the ball into the crowd and then crawl or hop to second base, which bag he would be entitled to according to ground rules. So with the tremendous ground rules. So with the tremendous throng cheering, Hack shouldered an armful of bats and limped to the plate. Old Jack Scott, the plowman

plate. Old Jack Scott, the plowman from North Carolina, was on the rubber for the Giants. He cut the first pitched ball right over the pan for a strike and Hack didn't even wince. He hurled another over and Hack fouled it off. Then there were a couple of balls and all this time Hack was studying the situation.

## The "Life Tenant" and the "Remainderman'

Two persons must be served in making every trust investment—the "life tenant" who receives the income from securities or real estate; and the "remainderman" who at some future date will receive the principal of the estate.

Both must be fully protected. The Life Tenant is entitled to a prompt payment of income when due. The Remainderman is entitled to receive the principal intact.

Under our plan of protected trust investments, a \$2,000,000 Special Reserve Fund has been set aside to assure full payment—the one of interest, the other of principal—on the day due.

### THE PURE OIL COMPANY

Twelfth Annual Report for the Fiscal Year Ended March 31, 1926

Columbus, Ohio, May 1, 1926.

After paying \$1,670,505.00 in dividends on its preferred stock, and six and one-half per cent (61/2%) on its common stock, amountonly of \$10,430,000:00 Sinking Fund Gold Notes.

Herewith is submitted the Twelfth Annual Report of The Pure Oil Company for the year ended March 31, 1926.

Current assets of \$28,847,694.96 equaled more than three and one-third (3½) times current liabilities of \$8,561,056.67 at the close of the fiscal year, and in the course of that period current assets declined \$5,741,764.85 against a reduction of \$14,580,129.64 in current and funded liabilities.

The outstanding common stock of the Company was increased in the amount of \$4,454,350.00, which was issued for the purchase of producing properties of the Humphreys-Boyd Oil Company in the Wortham field in Texas.

During the year the Company disposed of its stock in the Pure Oil Pipe Line Company of Texas, at the same time making an arrangement by which The Pure Oil Company is safeguarded by a supply of crude oil for the Smiths Bluff and Marcus Hook Refineries in addition to its own-production, to which the line was tributary.

During a period of thirty days, the Company offered to its employees a plan for purchase of its 6% Preferred Stock, the installments to be deducted from the monthly salaries of subscribers over a period of four years. While the benefits which the employees will realize under this plan are very considerable, the response on their part exceeded expectations. The average payroll of the Company covered about 8500 employees through the year, of which approximately 5450 were eligible to subscribe and 4175, or 78 per cent, participated for a total subscription of \$4,325,700.00. The plan does not contemplate the issuance of any new stock by the Company.

During the year the contributory group insurance plan was put into effect, to which 95 per cent of the eligible employees subscribed. The Marcus Hook Refinery was completely modernized and rebuilt during the year, and important additions to the refining capacities were made at the Muskogee and Heath Refineries, which will result in increased output, increased profits and economies of operation.

The marketing facilities of the Company were increased and conditions in that department materially improved during the recent year. The profitable marketing of our products has been materially strengthened in all of the territory which the Company reaches, particularly in the southeastern section of the country.

The net earnings of the Company are the largest in its history, and the outlook for the coming year is satisfactory. HENRY M. DAWES, President.

THE MINNESOTA LOAN AND TRUST COMPANY, TRUSTEE

This issue of bends has been approved by the Board of Refresd Commission

A letter to us from Mr. C. C. Yawkey, President of the Company, contains the following info

Property: The Montana Dakota Power Company with its subsidiary, the Eastern Montana Light and Power Company, owns and operates four modern steam generating stations having an installed capacity of 6,000 H. P. together with 334 miles of transmission lines, and has under construction 166 miles of additional transmission lines. Electric light and power is being distributed at retail to 35 towns in North Dakota and Montana. Upon completion of the transmission system, all properties will be interconnected and service will be available to approximately 25 more towns. Light and power is furnished the city of Williston, North Dakota, at wholesale. Steam heating service also is supplied in the city of Glendive, Montana. Practically the entire net revenue for the twelve month period ending March 31st, -1926, was derived from the sale of electric light and power.

History: The present Company is a consolidation of the Jennison Light and Power Company, Scobey Utility Company, Plentywood Electric Company, United Power Company, Listered Power Company, Williston Light, Heat and Coal Company and a number of other prop-erties operating in eastern Montana and western North Dakota.

## The Adopted Wife

By Amelie Rives

Hilary, still gazing into Celia's upturned face, continued to question her "Did O'Shea tell you he'd made a mistake?" he asked.
"No; but I knew it," Celia answered.
"You didn't have a quarrel?"

"You didn't have a quarrel?"

"No."

Hilary was silent for a moment, then he asked gently:

"What was your mistake about him, Celia?"

That convulsive trembling began again.

"I didn't really love him." she said at last in her lowest note of a muffled bell. "and he didn't really love me, either. No one has ever really loved me."

This was the last and the profoundest humiliation to which she could subject Celia Gibbs. And now from under her closed eyelids tears began to steal—heavy tears that dripped slowly down her pale face.

He bent forward and gathered her in his arms.

"You have made another mistake, Celia," said he, in an oddly broken voice, his cheek against her drooped head, "I love you—most really."

She did not answer, and putting his hand under her chin, he again lifted her face so that he could look into it. From her fast shut eyes tears were still welling, all her face was drenched with them.

"Don't you believe me, Celia?"

"Tou are always—kind," she faitered.

Hilary after hesitating for a second bent his head and kissed the trembling lips with passion. They grew still under his, her whole body grew still, then he felt her mouth pressing against his, harder, harder. She was returning his kiss with the ardent inexperience of a child.

The investigation disclosed that it was possible to produce any degree of perfection or imperfection in the structure of teeth of dogs by means of the diet taken during the development of the teeth. The more deficient the diet in the vitamin that controls the use of calcium by the body, the more the diet consisted of cereals, especially catmeal, and the less the animal was exposed to the ultra-violet rays from the sun, the worse formed were the teeth. The reverse of these factors led to excellently formed teeth.

From the investigations it may be said definitely that foods such as milk, egg yolk, butter, animal and fish fats, and especially cod liver oil, bring about the formation of good teeth, while cereals, and especially oatmeal, in the absence of the vitamin contained in

A test of this knowledge was applied to the growth of children, a number of whom were reared from birth on a diet that contained a sufficient amount of milk, egg yolk, and cod liver oil.

The eldest of the children is now 5½ years and there has been no decay in the teeth of any of them.

It was found that there was nearly four times as much decay in the teeth of children whose diets contained much oatmeal and little milk as there was in children whose diet contained much milk, less cereal, and some cod liver oil. teeth. Another point of importance for mothers is that the great majority of facial disfigurements are the result of dental malformations that could have been prevented by the proper development of the teeth in childhood.

A FAIR

QUESTION. What kind of subdivision property is easier to sell? Property improved with sewer, water, sidewalks, gas, electricity, curbs, paving, trees and shrubs or bleak prairie staked off into lots away from nowhere?

We know that property like our Devonshire Manor, with all improvements in and paid for by us, sells easier.

You need no experience to sell our property. Capable executives assist you in every way. We do not want the drifting salesman from other organizations. We want men who want to carve out a career for themselves with our organization, selling in accordance with the ethics of the real estate pro-fession.

Our active subdivision selling season is now under way on a big scale. Busses leaving every day at 11 a. m. and 2:30 p. m. will take you out to see our property.

This 5 passenger, 6 cylinder sedan has been kind. We have 168 used cars to select from. Studebaker Brougham.

5 passenger, Special Six. About 15 months ago this car sold for over \$2,200. It is today better mechanically and better looking than many new cars selling at over \$1,500. Its finish is beautiful and shows that the car has been given exceptionally good care; no mars or scratches on the car anywhere. Its Chase mohsir upholstery and general coach work look brand new. The equipment includes a large heater, extra life, bumpers, front and rear, 5 disc wheels, large trunk, large size motometer, etc. Specially priced today at \$845. HUPMOBILE SPORT TOUR

A few weeks ago this late Special Six Sedan was traded in to us by the wife of a prominent loop banker. The car was chauffeur driven and there is not a mar or scratch on the fenders or body, and there is not a worn place in the upholstery. It looks beautiful. The engine is guarenteed to be in the finest of condition. There are many special extras which go with the car, besides the regular standard equipment. This Sedan which cost over \$2,500, without the extra equipment, is specially priced today at \$985. Studebaker Touring Popular Light Six with its blue finish, which looks brand new. When you drive this easy-handling, powerful little car, you will apreciate its value. It is economical to operate and has a riding enality which will be seen. riding quality which will be appreciated immediately and more so after a 500 mile trip. Its top, upholstery, and curtains are perfect. Its engine has been corrected in our shop and is guaranteed. The tires are only slightly used. An ideal car with every essential extra. Specially priced today at \$450.

Studebaker Touring. Make no decision until you have driven this dashing Bix Six. There's a thrill in its surge of power. And because this Big Six motor can handle a 21 passenger bus—it mekes play of this low-swung sport touring. The body has been relacquered a light blue, with cream striping, and presents a new car appearance. The upholstery and interior look brand new. Has one-man top: 5 disc wheels, motometer, two Bifux bumpers, extractice, and other equipment. Not so many months are this famous Bix Six sold for over \$2.100. It is specially priced today at \$785. MAXWELL SEDAN, 1925. Don't fail to see this wond, bars. Must be sold. Can't tell from new. Many extras: 90 day ruar. Open eyes. and Sund: 1452 S. Michigan. Vic. 7748.

MAXWELL 4 PASS. COUPE.

Studebaker Sedan. Famous Bix Six, 7 passenger, looks new. Owned by an official of this organization; all changed every 500 mfles; has had monthly inspections, including lubrication service. The vital parts, incitding Timkin bearings in the whoels and rear axle, have been corrected to assure perfect service. This powerful sedam, luxuriously appointed, cost over \$5.000 less than sixteen months ago, Has a large trunk in rear, six extra good tires, large motometer. Bilex pumpers, special mubbers, and other extra equipment. Specially priced today at \$1.085. Studebaker Coupe.

Studebaker Coupe,
Special Sir, four passenger, with a
brand new lacquer finish of Brewsler
green. It is seldom that one of these
special coupes is offered for sale at
such a low price. This one bresents
an unusually attractive appearance.
There is not a scratch on either the
body or fenders. Its Chase mohair
upholistery and interior appointments
look brand new. The engine has been
corrected and runs very quietly and
smoothly. Specially priced today at
\$685.
